

The figure displays three box plots representing the distribution of the variable 'number' across three categories: 'low', 'medium', and 'high'. The y-axis is labeled 'number' and ranges from 0 to 10. The 'low' category (blue) has a median around 1.5, with most values between 1 and 2. The 'medium' category (orange) has a median around 4.5, with values ranging from approximately 3 to 6. The 'high' category (green) has a median around 8.5, with values ranging from approximately 7 to 10. All three distributions are right-skewed, with several outliers indicated by black diamonds.
